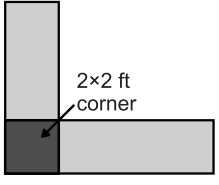
(a) Body Pre-Solves the Only Trap



L-Walkway (2 ft wide) in 24 ft × 18 ft Yard

Body instruction: "Treat the corner where the two strips meet so that the overlapping square is only counted once."

(b) GPT-5 mini Garden Task 1: Fixed 4-Part Worksheet (722 Words, Score: 14.0 / 15)

Part 1: Compute 5 Feature Areas	Part 2: Check $200 Budget	Part 3: Test 3 Given Edits	Part 4: Detached Method Prompt
Patio, walkway, triangle, trapezoid, and pentagon bed	Multiply areas by $4.00, $0.85, $3.50 and sum total cost	Widen path to 3 ft, lengthen patio 2 ft, or height to 6 ft	"Describe at least two different ways to break a shape"

Judge notes fixed steps (OE = 2/3), yet task still scores 14.0 / 15 across the five dimensions
